Great apartment in an older building in the old heart of the city. In the immediate surroundings are the green market, numerous cafes, restaurants, and turntable bus routes to all parts of the city. It is located in a very busy street, just a hundred meters from the parking garage. The entrance to the building is tidy and whitewashed. Also, the building possesses yard with possibility of parking. The apartment is salon type, completely renovated, great layout, and is suitable for office space. It consists of a central anteroom, three rooms oriented towards the street, one of which has its own bathroom with shower and detail in the mosaic. The second bathroom is spacious, also with shower. The living room is a whole with kitchen and dining room. Kitchen is fully equipped with cutting edge technology and elements, very spacious. This very friendly atmosphere, in pastel green tones exudes warmth and sophisticaion. Lighting completes this remarkable interior made with a lot of care and good taste.
