Interesting, unusual space is situated within well known Savamala area. The apartment is housed on the last floor of characteristic pre war building without an elevator. It spreads over two levels. Entrance is placed on the lower level and leads to the small living room. Living room is central part and leads to all other rooms: two rooms, bathroom and kitchen. From the living room staircase leads to the upper level. Upper level consists of four rooms and a bathroom. The apartment is equipped with central heating which uses electric power, laminate on the floor, while all rooms are air-conditioned. Bathrooms are relatively new with shower cabins. Kitchen is equipped with cupboards, appliances and kitchen counter with bar-chairs. The apartment ceiling is slightly slanted on the lower level, while on the upper level walls are one meter high where slope ends. Space could be rented without furniture or with several basic furniture pieces. In the near future an elevator is planned to be installed.
