Good looking apartment in border between Vracar and Crveni krst area. Street has exit to Boulevard of king Alexander, and building is only 150 m away from it, so shopping zone is in walking distance from the apartment. Apartment is abundant with light and pleasant for living. Building is newer, well maintained and with garage in basement. Apartment layout is partly unusual, since anteroom continues into living room, which is kind of split into two, where one part of living room has door (and it could be used for bedroom instead), and other part is open toward kitchen with kitchen-bar. Living room also has exit to terrace with sitting set. Second bedroom is separated and it has walk-in closet. Bathroom is next to second bedroom and equipped with shower cabin. Furniture is combined, different styles with lot of wood in black colour. Apartment is suitable for small families or single people.
