The apartment is housed in the new building with only several apartments, a backyard, underground garage and an elevator. It is housed on the first out of two floors, and it consists of two apartments merged together so it has two entrances and possibility for two kitchens and three bathrooms. Completely new, bright, not used before, which is a special advantage for future tenants. It is equipped with excellent built in elements, parquet, carpentry and modern ceramics. In the basement of the building there are two garage spaces at tenants disposal. This space is suitable both for family life and office space.
