Warehouse located on the road leading to Surcin, in part after the turn to the airport. The access to the warehouse is good, it is easily reachable from all directions, while the road to the warehouse itself is asphalted. Excellent connection to the motorway (6-7 km to the airport) and excellent connection with New Belgrade. The warehouse itself is located on a lot of about 10 acres, panel hard construction, with dimensions of about 45x16m and a ceiling height of 6 m. Comfortable and without internal pillars, which makes it suitable for regal storage. Diversified hydrant network inside and outside. On the lot in front there is plenty of space for tow truck manipulation. If necessary, there is a possibility of building the additional office space. A number of parking spaces.
