Excellent apartment, situated in a new building near the Temple of St. Sava. Quiet street with plenty of new buildings and exceptional facilities in the immediate vicinity - numerous shops, restaurants, cafes and Kalenic green market. It takes only 5 minutes to get on the highway, and the proximity of the frequent streets through which the city transport routes pass only 5-10 minutes. The apartment is housed on the third floor and consists of two levels. An attractive, modern concept includes an open layout living room with kitchen-dining area. The kitchen is equipped with high quality appliances. The apartment has three bedrooms and two bathrooms, which are located on the second level. The interior is modern and minimalist with excellent parquet, high quality and design ceramics, as well as suspended ceilings with built-in halogen lighting. Attractive, pleasant and comfortable ambience adapted to the modern man's life. In the garage of the building there are two parking spaces suitable for larger vehicles, available with the apartment.
