Very interesting space at nice location in the heart of Vracar. It is situated in the one of the most beautiful Vracar streets on the high ground floor of the pre war villa. The space has separate entrance and occupies the whole floor. The ceilings are higher than average - four meters high. Large entrance office - admittance area leads further to the premise. Layout is specific, all rooms are organized in a circle and mutually interconnected. Rooms are spacious, while bathroom with shower cabin and toilet are renovated. Kitchen is large and equipped with new elements. The apartment has four rooms, and admittance area. The windows, doors, and parquet are older, but completely refreshed. Ambience is nice, suitable for business activities as well as for comfortable life. Yard and one parking space in it are at disposal to future tenant.
