Excellent, renovated space is situated in a very nice location, near the Cvetni Trg square. It is housed on high ground floor of a well-maintained older building and oriented completely toward the yard. It consists of one large office, connected with a glassed in terrace, partially separated, fully equipped kitchen and bathroom with a shower cabin. The space is completely renovated and very modern. It has interesting wall coverings, lighting, modern ceramics and pvc carpentry. The parquet is of high quality, very nice, dark shade. It is equipped with modern office furniture, design that fits perfectly into the interior. The apartment has a beautiful view over the greenery of the backyard. Very interesting commercial space suitable for office work.
