Beautiful prewar apartment, on an excellent position, in a busy street in the city center. Building has entrance from fenced parking lot, located in front of it, so the apartment is isolated from noise. There is one parking space available with the apartment. The apartment is housed on the high ground floor and has windows oriented toward the entrance. It consists of a spacious entrance area, with access to all rooms, which could be used for admittance area. Two rooms are very spacious, kitchen has dining area and it is fully equipped. Bathroom is older but well maintained, equipped with a bathtub. The apartment has good parquet and new PVC carpentry and it is in good overall condition. It has a small pantry, as well as a spacious glassed in terrace overlooking the backyard/parking. It can be semi-furnished, with a kitchen and closets, suitable for office space purposes primarily.

Without parking space price would be reduced.
