Beautiful prewar apartment, located in the very center of the city, within walking distance of the National assembly and Nikola Pasic Square. Position well connected to different parts of the city. Well maintained walk-up building. The apartment is housed on the high ground floor and it is two side oriented. It consists of an entrance area leading into a parlor, which was previously used as admittance area and waiting room. From there on can access two bedrooms, one of which has a bathroom with a shower cabin. Second part of the apartment consists of one spacious room and a restroom. The apartment is completely renovated, while high quality materials were used, excellent ceramics, carpentry and lighting. It was previously used for medical practice, so each room has a sink, while floor throughout the whole apartment fulfills the legally required standards for that kind of business activity.
