Excellent, beautiful, small house in a strategic location, suitable for business activities. It is situated close to Autokomanda roundabout, near the highway. The house is self-standing in a yard of 200 m² where it is possible to park several vehicles. The main part, which is housed on the high ground floor, has an area of about 70 m² and consists of two connected salon rooms, freshly renovated kitchen, empty, without elements and a bathroom with a shower. The windows and doors are preserved and maintained. The floor is covered with ceramics, and the space has floor heating. The second part is divided into two levels with separate entrances. These are two separate rooms, also nicely maintained and illuminated, but with a lower ceiling height.
