Very interesting space in a building dating from the middle of the XIX century. The building is designed to be one of the Milos Obrenovic villas. It is situated at attractive location within Savamala, area well known Belgrade centre of social life. The building has new facade, while interior needs renovation. The apartment is unique, with authentic style. The apartment is housed on the second floor, while the entrance is mutual with another space, placed on the first floor. The apartment contains living room interconnected with kitchen and kitchen counter, bathroom in the hallway, and bedroom with a small bathroom and shower cabin. Above the living room there is a open gallery with a mattress. The apartment is housed on the last floor with slanted ceilings and roof top windows. Interior is enriched with wooden beams, and dominates white color and pale shades. The space is currently furnished with several furniture pieces, bur it could be fully furnished or without any furniture. Specific, artistic ambiance, suitable for a single person or a couple.
